Abdulaziz Mirsagatov

+998 99-789-3797 | mirsagah@mail.uc.edu | Tashkent, Uzbekistan

Experience

Frontend Developer | Unicon-Soft | Tashkent, Uzbekistan   August 2025 - Present
- Developing and maintaining responsive, high-performance **Angular** applications using **Tailwind CSS** for rapid, consistent UI development
- Optimizing Angular **change detection** strategy to improve application load times
- Implementing **Reactive Forms** and **RxJS** to handle complex data-driven workflows efficiently.

Frontend Developer | OY STARTECH | Remote   August 2023 – May 2025
- Implemented UI functionalities for the "OYGUL" startup, which has reached 300,000 users in just 3 months, using **Next.js** and **Tailwind CSS**
- Applied **Scrum** methodology as part of a collaborative team, ensuring effective communication, and streamlined project workflows
- Lead testing initiatives with **Jest** and **React Testing Library** to ensure the reliability and performance of the software projects
- Contributed to the project "TTLK", which was awarded the Tech Award of $100,000, by optimizing its performance using **React**

Education

University of Cincinnati, OH   2021 - 2025
Economics & Computer Science   GPA: 3.95 / 4.00
Coursework: Business Analytics, Econometrics, Algorithms & Data Structures, Programming Languages, Software Engineering, Operating Systems, Cloud Computing, Machine Learning & AI

Projects

Portfolio: www.mirsagatov.com (check out for more information on software projects)

Leader & Software Developer | Engineering Course Project
- **Led** the team of 4 in designing, managing, and building of a Biorobot project
- Developed **LabVIEW** software for the robot's walking, line-following, and lifting mechanisms

Collectify | Personal Web Project
- Built a web app for managing custom collections with **NextAuth** authentication and multilingual support (English/Russian).
- Designed a responsive UI with adaptable light/dark mode using **Tailwind CSS**.
- Synchronized real-time comments and likes across sessions with **Pusher**.
- Developed **RESTful API** endpoints and utilized **Prisma ORM** for database interactions with **MongoDB**.

Skills

Technical: JavaScript, TypeScript, Angular, React, Redux, Next.js, SASS/SCSS, Tailwind CSS, Python, C/C++, Git, SQL, Node.js, MongoDB, Jest, VBA
Language: English (fluent), Russian (fluent), Arabic (beginner), Uzbek (native)

Certifications & Awards

"El-Yurt Umidi" Scholar 2021

Machine Learning Certificate from DeepLearning.AI & Standford Online

"Commercial Software Development – Frontend" Training from Itransition Software Company

International A level Certifications in Computer Science – A*, Mathematics – A*, and Physics – A*
